
Current Force Protection Condition for the Grafenwoehr, Vilseck, and Hohenfels Communities

“BRAVO”

Terrorist Force Protection Conditions

A Chairman of the Joint Chiefs of Staff-approved program standardizes the military services' identification of and recommended responses to terrorist threats against U.S. personnel and facilities. This program facilitates interservice coordination and support for antiterrorism activities and is called FPCONs.

The Department of Defense decided the name change was necessary following the investigation into the attack on the USS Cole. DOD officials determined there was possible confusion between "THREATCONs," which are DOD force preparedness states, and the Department of State's "Threat Levels," which are assessment categories for countries and regions. To eliminate this confusion, DOD has renamed security postures as "Force Protection Conditions."

There are four FPCONs above normal:

FPCON ALPHA

This condition applies when there is a general threat of possible terrorist activity against personnel and facilities, the nature and extent of which are unpredictable, and circumstances do not justify full implementation of FPCON BRAVO measures. However, it may be necessary to implement certain measures from higher THREATCONS resulting from intelligence received or as a deterrent. The measures in this THREATCON must be capable of being maintained indefinitely.

FPCON BRAVO

This condition applies when an increased and more predictable threat of terrorist activity exists. The measures in this THREATCON must be capable of being maintained for weeks without causing undue hardship, affecting operational capability, and aggravating relations with local authorities.

FPCON CHARLIE

This condition applies when an incident occurs or intelligence is received indicating some form of terrorist action against personnel and facilities is imminent. Implementation of measures in this THREATCON for more than a short period probably will create hardship and affect the peacetime activities of the unit and its personnel.

FPCON DELTA

This condition applies in the immediate area where a terrorist attack has occurred or when intelligence has been received that terrorist action against a specific location or person is likely. Normally, this THREATCON is declared as a localized condition.

Individual Protective Measures. Force Protection Level 1 Training is available to all military, family members, contractors, and local national employees. Contact the 100 ASG Force Protection Office for more details or to request a class.

Force Protection Level 1 Training is also available online. Visit <http://at-awareness.org/>. The access code is **AWARE**.

Trips and Special Events:

All special events and trips within the 100 ASG area of responsibility must be approved by the Commander.

Contact the 100 ASG Force Protection Office for an assessment form and trip requirements and timeline for submission.

Trip and Event Coordinators are required to visit the State Department at the following link for travel advisories on areas they will be visiting.

Travel Tips:

Please consider these tips when planning your travel:

1. Travel in small groups (never alone) and vary your movements where possible.
2. Always let someone know where you are going, a telephone number where you can be reached, and when you are expected to return.
3. Try to be inconspicuous. Do not wear uniquely American clothing, military uniforms or blare American music while traveling. Do not draw attention to yourself.
4. Be aware of your surroundings. Take note of suspicious personnel and be aware of escape routes/exits.
5. Avoid spontaneous gatherings or demonstrations.

6. If you happen to come upon a demonstration, remain calm and disengage from the situation. Avoid speaking loudly.
7. Stay away from high risk places. Travel through major thoroughfares and in well-lighted areas.
8. Know emergency numbers and potential safe areas.
9. Carry a fully charged mobile phone where possible.
10. Keep vehicle in good working order and fuel tank full.
11. Consider joining an auto safety club in the event of mechanical breakdown or vehicle accident.
